rules of the game
ping pong is a type of game for which one requires a camera with a flash, blank pages, and a collection of images per player. the objective of the game is to show collected photographs, in which the opponent is prompted by a skillful move. this alters and limits their opponent's chances of returning the ball and therefore the next chapter can be opened.

spielregeln
ping pong ist eine spielart, zu deren ausübung man einen fotoapparat mit blitz, leere seiten und pro spieler eine bildsammlung benötigt. ziel des spieles ist es, gesammelte fotografien zu zeigen, bei dem der gegner durch geschicktes rückspiel zu fehlern veranlasst wird, die den bildwechsel beenden und somit das nächste kapitel eröffnet werden kann.
